We provide a non-GAAP net loss disclosure as a supplemental measure to U.S. GAAP regarding our operational performance. This financial measure excludes the impact of certain items; therefore, it has not been calculated in accordance with U.S. GAAP.

We believe that this additional non-GAAP financial measure is useful to investors in assessing our operating performance. We also use this financial measure internally to evaluate our operating performance and for planning and forecasting of future periods. We also believe that it is in the best interest of our investors to provide this non-GAAP information.

While we believe that this non-GAAP financial measure provides useful supplemental information to investors, there are limitations associated with the use of this non-GAAP financial measure. Our non-GAAP financial measure may not be reported by all of our competitors and it may not be directly comparable to similarly titled measures of other companies due to potential differences in calculation. We compensate for these limitations by using this non-GAAP financial measure as a supplement to U.S. GAAP and by providing a reconciliation of our non-GAAP financial measure to its most comparable U.S. GAAP financial measure.

Non-GAAP financial measures are not in accordance with or an alternative for U.S. GAAP. Our non-GAAP financial measure is not meant to be considered in isolation or as a substitute for comparable U.S. GAAP financial measures and it should be read only in conjunction with our consolidated financial statements prepared in accordance with U.S. GAAP.
